

SHOWCASE™

R E F L E C T I O N S

The Showcase program is a reflection of exceptional cows that have propelled their breed throughout generations. One-name cows like Paris, Hanan 33317, Have Not 8784, Habitan and Lena structure the Holstein offering.

These proven maternal lines breed true and give us confidence that the image and performance of these cow families will be reflected in your herd through their thoughtfully crafted sons.

We value sires that have the right conformation but also improve health and fitness, add production and create the kind of cow that can thrive in any environment around the world. In our experiences, these attributes define a "crossover" sire. The term we use to describe Showcase sires like 250H012961 DOC who created the crossover standard nearly a decade ago.

Contact your local World Wide Sires representative to order.
